

Adopt or Foster!

“ Being an adopter for R+FP has been the most rewarding experience of my life. Seeing these animals’ capacity to forgive and allow themselves to be loved after everything humans have done to them, has inspired me to be a voice for all those sitting in laboratories. ”

- Terri, Adopted Nelly & Gretel

“ We have the easy part. We get his love and wiggly bottom and they make all of the veterinary arrangements and incur the expense. We feel privileged to help, in a small way, R+FP to save these lives that would otherwise be lost. ”

- Mary, Foster Mom to Tater
